

KOOSHA PAIDAR BOUSHEHR

About us

We focus on effectiveness, productivity and quality

Koosha Paidar Boushehr (KPB) is a private company which provides Engineering, Procurement, Construction and Installation (EPCI) services in the field of Oil, Gas and Petrochemical Industry.

Our experience in delivering complex engineering solutions within the oil & gas sector, gives our customers confidence that we are the right business to handle their most challenging projects. During our manager's years of operation, we have developed many technical alliances and relationships with specialist companies, offering the most up-to-date technical services and know how in our field.

Koosha Paidar Boushehr is proud to be associated with these industry leaders and is continually working to bring global best practices to our clients. That's why when clients have difficult EPCI challenges, they come to KPB for an expert advice. We have worked both offshore and onshore with the best and leading oil and gas clients inside the country for many years. Throughout this period, we have established a track record of delivering projects on time, on budget and to extremely high standards. Another element of KPB success is customer satisfaction. Our dedicated staff share company values to offer services that not only meet but even customer expectations.

The company aims to gather trust of clients as a one stop specialized, multi-disciplinary offshore and onshore service company - for accuracy in information; for trusted advice; for brisk comeback and support; and for help in protecting their asset interests. At our heart, we're a diversified EPCI company, made up of teams of people who are proven in their industries. All working to design, build, transport, operate, and maintain projects all over Iran. Call on us, torment us and challenge us with your growth plan encumbrances. Our solutions would enthrall you. We are available 24/7/365 to meet your every requirement on time and on budget. In other words, KPB is the partner that your project needs. From modest to massive, we move it forward.

Services

KPB provides its clients with a safe and cost-effective EPCI services through the combination of a well-motivated workforce lead by a dedicated management team with the latest modern equipment and pioneering technology. In fact, KPB management and its employees are committed to providing the best quality of services to our clients and to exceed the client expectations in terms with the high safety standards and policies and procedures of KPB. Our success in achieving this is measured by our client's perception of not only the technical execution of jobs, but also our overall response in terms of readiness, communication, safety and service attitude.

In this regard our primary consideration must always be our clients and our primary objective, their satisfaction.

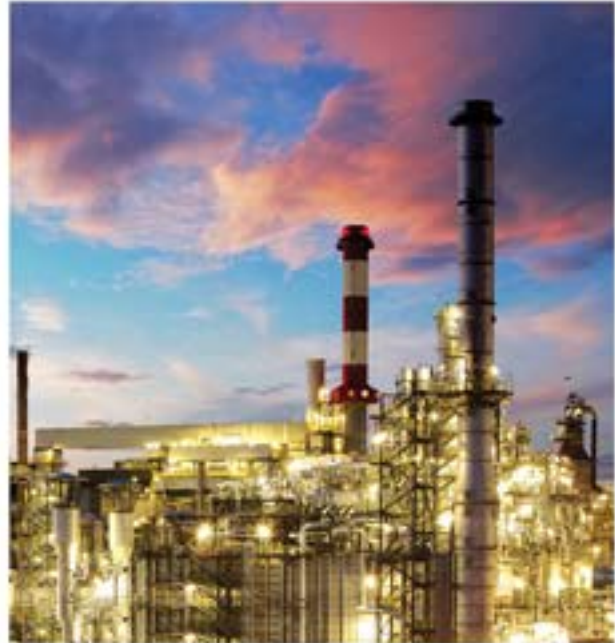

Engineering Capability

At the core of our business is our extensive and detailed engineering capability. We provide multi-discipline engineering expertise from the teams based in our engineering center including structural, architectural, mechanical, process, electrical and instrumentation. Our experienced engineers provide innovative solutions with global compliance for every projects, with services including detailed engineering, site survey, site supervision, pre-commissioning and commissioning, 2D drawing and 3D modelling, as well as FEED studies. Providing our clients with solutions that perform to the highest industry standards, we are specialized in engineering services including stress analysis, risk assessment, in-place analysis, lifting analysis, weighing analysis, transportation analysis, thermal design, heat load calculations and much more.

Procurement Services

Procurement is a part of all EPC projects, but it is also practical and economical to integrate into most oil and gas projects.

Close interaction between engineering team and procurement specialists keeps projects within budget and on schedule by securing the right materials and equipment at the most favorable price and in due time.

Oil producers and gas plant operators, onshore and offshore are met with ever more challenging problems which must be overcome.

Our comprehensive procurement service, offers you full support infrastructure, considering all aspects of execution including sustainability, cost implications, logistics and technology.

With advanced global sourcing methods, a highly experienced team, prized manufacturer relationships, vast consolidation expertise and a truly innate understanding of our customers' requirements, we always deliver and ultimately save our customers money and time. KPB is recognized as a new player in oil and gas and petrochemical procurement, having strategically sourced complex services, capital equipment, and everything in between.

Construction

Building anything in the oil and gas industry is an extremely difficult proposition that takes a great deal of commitment and even more expertise. That's why We are specialists when it comes to oil & gas construction services.

Our Clients look to KPB for its creative construction solutions when building onshore and offshore facilities. These types of projects are often in challenging locations and require innovative execution approaches. That is where we come in.

We use innovative construction practices, including custom designed equipment for critical applications, providing a superior level of service, economies of scale, and a quality product. In fact, as a General Contractor we can bring together a total package of Civil, Structural, Mechanical and Electrical contractors to get the job done.

KPB provides both Offshore and Onshore construction services to major contractors. from the fabrication of Petrochemical plants to Structural decks, Living quarters, Jackets, Helidecks, Flare booms, pressure vessels, Riser protectors and many more. We also have expertise in welding of various steel including stainless-steel, carbon steel and duplex using a wide range of processes such as SMAW, Orbital welding, TIG welding and SAW. Our crews of selected personnel all have several years of experience within their working capacity and are highly capable within their roles.

The summary of projects implemented under the company's managers responsibility:

- construction of tripod and fenders of Aboozar Project

- Rebuilding pioneer barge jack-up (completely the jacking, power and instrumentation systems)

And many other projects along with managing more than 2000 personnel's in various parts of projects

Installation Services

Installation is often the critical stage in every oil and gas production facilities. Responding to our Clients' needs, KPB has grown its capabilities to provide a comprehensive range of services, focused around onshore & offshore installations.

Our installation activities bring together a range of fields of expertise to create comprehensive, cost-effective solutions that are specifically tailored to meet your needs.

QHSE POLICY: Something We Take It Seriously

At Koosha Paidar Boushehr Company, we believe a high standard of Quality, Health, Safety and Environment (QHSE) is vital to our success.

In fact, by maintaining a high level of QHSE, we aim to meet our client's expectations, and commit ourselves to create a safe and healthy working environment for all people working for our company.

We continuously work to reduce the number of accidents and incidents to zero and to keep risks to personnel, equipment and the environment at a level, as low as reasonably practicable. That is why our managers at all levels allocate time and resources to QHSE with an equal approach to other primary business objectives and monitor progress regularly.

At the same time, we believe maintaining and improving our QHSE standard is the responsibility of every employee. This is supported by training programs and sharing knowledge throughout the company. In fact safety is always at the heart of everything we do, no matter where our work takes us. We believe Safeguarding life is our license to operate. This is why we provide a safe working environment for everyone working on our projects.

We owe this to our proactive safety culture and training. Our employees actively contribute to health and safety guided by the motivation and support of our management.

our innovation program focuses on preventing or minimizing any undesirable environmental effects of our activities, and on improving opportunities for nature to develop. This means that we offer our clients better value and a key in to the world of tomorrow.

KOOSHA PAIDAR BOUSHEHR

Why Koosha Paidar Boushehr is Different

- Our success is built upon operational excellence, continuous improvement and local knowledge. To compete effectively in the energy industry, we excel at offering customized solutions.
- while also adopting the international best practices in HSE and the recruitment of highly skilled professionals, will ensure that KPB services surpass industry standards, strategically strengthening the company for decades to come.
- With having professional employees and truly solution orientated, we are able to provide a number of cost effective, internationally compliant services to meet even the most challenging requirements of our clients.
- We often work with our clients from concept to execution. Time and again, we have worked against aggressive project deadlines on complex sites without jeopardizing quality or safety. Our successful and incident-free project deliveries are one of the reasons many of our clients choose to work with us repeatedly.
- We work best when we work closely with clients, building an on-going relationship that is based on trust, efficiency and satisfaction with the quality and speed of our workmanship.
- We design and build with the best and most cost-efficient strategies possible.
- Our employee-ownership culture drives our people to outperform and provide high value and outstanding results for our clients.
- We are always ready to meet the contractor's expectations within specified time schedule professionally.
